### **BCD COMMITTEE REPORTS**

1. Reviewed Myer's Open Lands Board written report. The Report is available upon request.

### **PARTNER REPORTS**

1. Jason Lindstrom, Fish Wildlife & Parks (FWP), in Helena, reported:
  - a. The snowpack for the Bitterroot is below average. However, the heavy moisture received in November and December was enough to fill Painted Rocks Reservoir. To leave room in the reservoir for spring run-off, water is currently being released at a rate of 200cfs.
  - b. Due to the recent windstorms, there are a significant number of downed trees in the East Fork of the Bitterroot River. Downed trees and an ice jam caused flooding to occur at the Spring Gulch Campground. The US Forest Service removed a few of the trees from the river to mitigate the flooding.
2. Rob Livesay, Ravalli County Planning and Floodplain Department, reported:
  - a. The Ravalli County Floodplain Department has had very few floodplain applications.
  - b. The subdivision proposals are also down.
  - c. The Open Lands Board received a new application from the Griffin Cattle Company for 111.7 acres located northeast of Corvallis. A site visit has been scheduled for the 5<sup>th</sup> of February.
3. Kimberly Richardson, MSU Ravalli County Extension Resources/Horticulture Agent reported:
  - a. Richardson stated that her contact information may be given to the Hamilton High School Envirothon Team to assist in the mentorship of its Rangeland education.
